ever much otherwise she might be in sympathy with American aims.

President Wilson's speech follows:

"When the invitation to be here tonight came to me I was glad to accept 
it—not because it offered me an opportunity to discuss the programme of the 
league—that you will, I am sure, not 
expect of me—but because the desire 
of the whole world now turns eagerly, 
more and more eagerly, toward the 
hope of peace, and there is just reason 
why we should take our part in counsel 
upon this great theme. It is right that 
I, as apokesman of our government, 
should attempt to give expression to 
what I believe to be the thought and 
purpose of the people of the United 
States in this vital matter.

"This great war that broke so suddenly upon the world two years ago, 
and which has swept within its flame 
so great a part of the civilized world, 
has affected us very profoundly, and 
we are not only at liberty, it is perhaps our duty, to speak very frankly of 
it and of the great interests of civilization which it affects.

"With its causes and its objects we 
are not concerned. The obscure fountains from which its stupendous flood 
has burst forth we are not interested 
to search for or explore. But so great

tains from which its stupendous nood has burst forth we are not interested to search for or explore. But so great a flood, spread far and wide to every quarter of the globe, has of necessity engulfed many a fair province of right that lies very near to us.

### Our Rights Affected.

"Our own rights as a nation, the liberties, the privileges and the property of our people have been profoundly affected. We are not mere disconnected lookers.on. The longer the war lasts the more deeply do we become concerned that it should be brought to an end and the world be permitted to resume its normal life and course again. And when it does come to an end we shall be as much concerned as the nashall be as much concerned as the na-tions at war to see peace assume an aspect of permanence, give promise of days from which the anxiety of uncer-tainty shall be lifted, bring some as-surance that peace and war shall al-ways hereafter be reckoned part of the common interest of mankind.

"This is undoubtedly the thought of America. This is what we ourselves will say when there comes proper occasion to say it. In the dealings of nations with one another arbitrary force must be rejected, and we must move forward to the thought of the modern world, the thought of which peace is the very atmosphere. That thought constitutes a chief part of the passionate conviction of America.
